Pro- Care Bed

BF-6.33

The Pro-Care Bed is an electrically powered profiling bed for nursing and home care.

Specification:

- Has 4 section mattress support
- Electrically adjusted height from 40 cm. to 88 cm. (16"- 35")
- Electrically adjusted back rest and leg lift with fowler position knee brake
- Light weight at 105 kg. overall
- Standard bed size 200 x 90 cm (78 1/2" x 35 1/2")

Pro- Bario

BF-7.33

Electrically powered profiling beds for Loan Stores, community and home nursing care.

- Has 4 section mattress support
- Electrically adjusted height from 40 cm. to 80 cm. or from just 20 cm. – 60 cm. for the new low version
- Electrically adjusted back rest and leg lift with fowler position knee brake
- Electrically adjusted Trendelenburg or reverse function
- Light weight at 105 kg. overall
- Lying surface 200 cm. x 120 cm. (78 1/2" x 47")

Hadley

BF-8.33a

Electrically powered profiling beds for equipment stores, community and home nursing care

- Has 4 section mattress support
- Electrically adjusted height from 40 cm to 80 cm (16" to 32") or from just 20 cm to 60 cm for the low version (8" to 24")
- Electrically adjusted back rest and leg lift with Fowler position knee-break
- Electrically adjusted Trendelenburg/ reverse function
- Head and foot boards in attractive beech
- Safe working load 200 kg (32 stones)
- Standard bed size 200 x 90 cm (78 1/2" x 35 1/2")

Excel 1000

BF-9.34

Made of heavy duty, long lasting, bubble textured PVC (EN-71, low toxic). Heavy gauge premium vinyl is tearing resistant, even to accidental punctures.

Specification:

- Size: 78" (L) x 34" (W) inflated
- Height of Cell: 2 Ω " inflated
- Number of Cells: 130 Bubble Cells
- Thickness: 11 gauge
- Color: Beige

Excel 2000

BF-10.34

Made of heavy duty, long lasting, bubble textured PVC (EN-71, low toxic) Heavy gauge premium vinyl is reusable resistant from tearing and puncture.

Specification:

- Size: 118" (L) x 34" (W) inflated
- Height of Cell: 2 1/2" inflated
- Number of Cells: 130 Bubble Cells
- Thickness: 11 gauge
- Color: Beige

Excel 5000 Alternating Therapy Pump and Low air Loss Mattress

BF-11.34

The mattress of low air loss system made of special nylon and TPU materials, offers prevention of pressure sores, also offers comfort. Moreover, the complete set covers is water-proof. The nylon and TPU material have ventilation to give users excellent comfort.

Specification:

- Dimension: 80"(L) x 36" (W) x 5" (H) inflated
- Air Cell Depth: 5"
- 17 Nylon and TPU air cells nylon and PU top cover
- CPR valve for quick emergency air release
- 8 air cells with laser holes for air loss
- Removable non-shearing quilted top cover encapsulates the entire mattress
- Replacement air cells available, easily installed

3014 Bedside Cabinet

BF-18.36

- All wooden parts with three-fold DD painted finish
- Rounded corners and edges
- Solid wood
- All materials and surfaces toxicity tested

2084 Bedside Cabinet

BF-19.36

Automatic Overbed Table

BF-20.36

- Powder coated steel column and base
- 3/4" particle board is coated with melamine lamination to protect its resin bonded plywood surface
- Table top:
5/8" T x 15" W x 31.3" L
- Light fingertip pressure is enough to adjust table height 30" – 41.5"

Backrest

BF-21.36

- Offer increased comfort. Metal frame deflected away from the normal position of the head
- Strong canvas stretched over a white powder coated steel frame providing back support at an adjustable angle from 35° to 90°

Standard I.V. Stand

BF-22.36

- All steel chrome plated I.V. stand with two welded hooks
- Four legs are powder coated flat pieces steel base with 4 casters

Bed Rail

BF-23.36

- Chrome plated steel frame
- For use on woven spring style hospital bed
- Spring-loaded cross bars for quick installation and easy adjustment of bed rail to raise or lower down
- Cross-bar width adjustment: 37"-43"
- Length adjustment: 47"-72"
