

# First Aid Care

### Adjustable universal head immobilizer

FA-1.89

New universal head immobilizer. Made with expanded material at closed cells and covered by an exclusive mould-proof, liquids-proof, vinyl material. The peculiarity of this instrument is the inside aluminium layer that allows to fit the head immobilizer to the head of the patient. It is fixed by a Velcro® system and it is supplied with straps for forehead and chin immobilization.

### Stretcher with back

FA-2.89

This stretcher is suitable for auxiliary uses as secondary stretcher inside the ambulance.

- Safe, adjustable backrest operated by a gas spring and lockable in any position
- Frame in light and sturdy aluminium
- Bag with n. 2 quick unhooking belts for the immobilization of the patient
- It can be folded for an easy arrangement
- Wheels and feet turned inwards in order to reduce the clearance
- Orange nylon sheet fire proof, water proof, anti-tear and easy to clean
